ABOUT

Software developer with 3+ years of backend and full-stack experience in C# and PHP. Works across databases, REST APIs, and business application development with a focus on internal systems and process automation.

SKILLS & TECHNOLOGIES

Languages	C#, PHP, SQL, JavaScript, HTML/CSS
Frameworks	.NET — WinForms, ASP.NET
Architecture	Layered Architecture, RESTful APIs, Controller–Service–Repository
Database	MySQL — schema design, stored procedures, triggers, views, events
Cloud & VCS	AWS, Git, GitHub
Tools	Visual Studio, VS Code, Postman, Swagger

PROFESSIONAL EXPERIENCE

Software Developer | Castles Int’l Technology & Services PHL, Inc.

Aug 2022 – Apr 2026

- Refactored and maintained multiple modules in a legacy C# WinForms + MySQL MIS system, resolving recurring runtime failures.
- Designed and built Helpdesk and Billing modules from scratch, replacing Excel-based manual processes and reducing processing time and errors from weeks to 20 seconds.
- Built an automated billing email system with configurable timing, CC/BCC support, logging, and reporting.
- Improved MySQL reliability through data cleanup, stored procedures, triggers, functions, and scheduled events.
- Refactored PHP REST API to controller–service–repository pattern; standardized responses and reduced tight coupling.
- Managed Git workflows and AWS deployments to stabilize releases and cut production incidents.

Key Entry Operator | Freight Process Outsourcing Solutions Inc.

2021 – 2022

- Processed shipment data from faxed documents, applying complex business rules and validations.
- Consistently met daily quota of 100+ shipments with high accuracy.
- Generated Excel reports supporting management decisions.

Data Encoder | Promerch Unlimited Inc.

2015 – 2016

- Produced daily Excel stock visual reports and summaries for planning decisions.
- Provided hardware, software, and network support to maintain operations.
