SUMMARY

Software Developer with 3+ years of experience developing and maintaining business applications using C#, .NET WinForms, MySQL, and REST APIs. Experienced in replacing manual Excel workflows with applications, automating billing and document generation, optimizing SQL and database objects, troubleshooting production issues, and supporting business users. Hands-on experience with Git and AWS EC2 deployments.

SKILLS & TECHNOLOGIES

Languages	C#, SQL, PHP, JavaScript, HTML/CSS
Frameworks & Tech	.NET, WinForms, ASP.NET Core, Entity Framework Core
Development	OOP, Dependency Injections, LINQ, Async/Await, MVC Architecture, REST API Integration, JSON
Database	MySQL, Database Design, Stored Procedures, Views, Triggers, Scheduled Events, Indexing, Query Optimization
Tools	Visual Studio, VS Code, Git, Postman, Swagger
Testing & Support	Software Testing, Debugging, Root Cause Analysis, Application Troubleshooting, Requirements Gathering, Technical Documentation
Deployment	AWS EC2

PROFESSIONAL EXPERIENCE

Software Developer | Castles Int'l Technology & Services PHL, Inc.

Aug 2022 – Apr 2026

- Developed and maintained C# WinForms business applications backed by MySQL for internal MIS operations.
- Designed and implemented Helpdesk, Report Builder, and Finance Billing modules, replacing Excel-based manual workflows with business applications.
- Built an automated billing notification application that monitored billing records, generated HTML email notifications, automatically attached Statement of Account (SOA) PDFs, and sent scheduled reminders based on configurable business rules and due dates.
- Built an automated SOA PDF Generator that converted billing data into PDF statements and generated documents on scheduled intervals without manual intervention.
- Maintained and enhanced legacy MIS applications, resolved production issues, and improved application stability.
- Developed and optimized MySQL stored procedures, triggers, scheduled events, and SQL queries to support application functionality and performance.
- Integrated and maintained REST APIs for communication between internal systems and external services, including JSON-based data handling.
- Performed software testing, debugging, root cause analysis, and production issue resolution.
- Worked with business users during requirements gathering and prepared technical documentation for implemented features.
- Used Git for source control and participated in AWS EC2 application deployments.

Key Entry Operator | Freight Process Outsourcing Solutions Inc.

2021 – 2022

- Processed shipment information according to business rules, maintained high data accuracy, and prepared operational Excel reports.

Data Encoder | Promerch Unlimited Inc.

2015 – 2016

- Managed inventory data encoding and reporting, developed Excel templates and visualizations for item monitoring, and provided basic computer, software, and network troubleshooting support.

EDUCATION & CERTIFICATIONS

BS in Information Technology

Jose Rizal University · 2023

Programming NC IV

ACLC Mandaluyong · 2012

Diploma in Software Development

ACLC Mandaluyong · 2012

Awards: Programmer of the Year, Best in Thesis
